Lesson 6

- » Hyper Text Markup Language (**HTML**) is the standard programming language used to **create web pages**.

HTML Tag	Usage
<html>	• It's the <u>main tag</u> in the page. • It defines the start and the end of the HTML page.
<head>	• It contains important information about the pages that <u>do not appear</u> to the user, such as the page title in the browsing bar.
<title>	• It defines the page title shown on the browser tab.
<body>	• It contains all the content that will appear on the page, such as the text and images.
<h1> <h1>	• It contains the largest heading.
<h2> <h2>	• It contains the subheading.
<h6> <h6>	• It contains the smallest heading.
<p> <p>	• It's used to write a paragraph of a text.
<i> <i>	• It's used to make a text <i>italic</i>.
 	• It's used to make a text bold.
	• It's used to insert an image.

- » When you finish writing the HTML code:
- Save the HTML file with the extension "**.html**".
- » **HTML tags** have **three** main parts: an opening tag, the content, and a closing tag.
- » Most tags have an opening tag and a closing tag.

Lesson 1

» Disadvantages of online games:

① Physical dangers:

- ① Back and neck problems
- ② Eye dryness and blurry vision
- ③ weight gain

② Psychological dangers:

- ① Bullying: don't respond and inform your family.
- ② Gaming addictions may cause aggressive feelings. This negatively affects your study, sleep and family and friends time.

③ Security dangers:

- ① Chatting with strangers.
- ② Sharing personal information.
- ③ Clicking unknown links; these links may lead to stealing your personal information or spreading viruses.

» Responsible Gaming Practices:

To avoid physical dangers:

- ① Take breaks from the screen.
- ② Stay active and exercise.

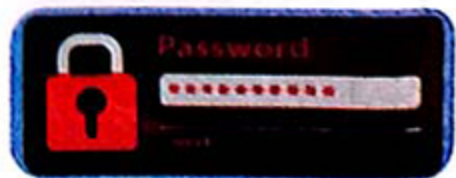

To avoid psychological dangers:

- ① Set fixed play times.
- ② Don't use games to escape problems.

To avoid security dangers:

- ① Don't share your personal info online.
- ② Play only with people you know.
- ③ Use privacy settings.

Lesson 2

» Passwords:

- Use at least **eight** random characters of letters, numbers, and symbols.
- Secure passwords must be difficult to guess.

» Multi-Factor Authentication (MFA):

- It requires at least **two** ways to identify yourself.

» Fingerprint Authentication:

- It scans your finger for confirmation.

» Facial Recognition:

- It uses your device's camera to recognize your face.

» Full Encryption:

- It protects your information.

» If your data is exposed to risk:

- ① Inform your parents or a trusted person.
- ② Report data theft to the responsible authorities.

Exercises on Lesson

6

1 Choose the correct answer:

- 1 HTML stands for
a. Hyper Text Machine Language b. Hyper Text Markup Language
c. High Tech Markup Language d. Human Text Markup Language
- 2 is the standard programming language used to create web pages.
(القاهرة – الزيتون 2025) (بورسعيد 2025) (الشرقية – ديرب نجم 2025)
a. HTML b. Heading c. MS Windows d. Android
- 3 The HTML language consists of a group of
a. applications b. tags c. servers d. databases
- 4 The HTML language consists of three main parts and there is a at the beginning and the end.
(أبناؤنا في الخارج 2024)
a. paragraph b. word c. drawing d. tag
- 5 To create a paragraph in the web page, use the tag.....
a. <h1> b. <i> c. d. <p>
(الإسكندرية – شرق 2024)
- 6 The closing tag for creating a paragraph in HTML is
a. </p> b. <p/> c. </para> d. <end p>
- 7 HTML tags have main parts.
a. two b. three c. four d. five
- 8 The main tag that defines the start and the end of the entire web page is
a. <head> b. <body> c. <h1> d. <html>
- 9 Programmers use the Hyper Text Markup Language (HTML) to create
(دمياط 2024)
a. web pages b. games c. sources d. databases

- 10 Information that does not appear to the user on the web page is included within the tag.
 a. <body> b. <head> c. <p> d. <i>
- 11 The <h1>.....</h1> tag refers to
 a. creating a paragraph b. the largest heading
 c. the subheading d. creating a link (الإسكندرية – المنتزه أول 2025)
- 12 All content that is visible on the web page is placed inside the tag.
 a. <title> b. <html> c. <body> d. <head>
- 13 To create the smallest subheading in HTML, use the tag.
 a. <h1> </h1> b. <h6> </h6>
 c. <p> </p> d. <a>
- 14 To insert a picture or image onto the web page, you must use the tag.
 a. <i> b. c. <body> d. <h1>
- 15 To save an HTML file, the file name should end with the extension
 a. .txt b. .doc c. .html d. .pdf
- 16 HTML tags consist of an opening tag, a closing tag, and
 a. the content b. comments c. attributes d. none of them
- 17 The tag is used to italicize text in HTML.
 a. <h> </h> b.
 c. <i> </i> d.
- 18 To make the text bold in a web page, use the tag.
 a. b. <p> </p>
 c. <h6> </h6> d. <i> </i> (الإسكندرية – المنتزه ثان 2025)
- 19 The HTML tag <h2>.....</h2> refers to (القاهرة – المرج 2025)
 a. a subheading b. the smallest subheading
 c. a large heading d. a paragraph
- 20 The tag is used to create the largest heading in HTML.
 a. <h6> b. <h1>
 c. <h2> d. <i> (الشرقية – الإبراهيمية 2025)

- 21 The tag used for an italic text in HTML is
 a. <h1> b. c. <i> d. <a>
- 22 The false tag from the following tags is (القليوبية 2024)
 a. <i> </i> b. <a>
 c. d. <h1> </h1>

2 Put (✓) or (X):

- 1 The HTML language has an opening tag and a closing tag only. ()
 (الإسكندرية - المنتزه ثان 2024)
- 2 HTML is a standard programming language used to create web pages.
 (القاهرة - المرج 2025) (الجيزة - العمرانية 2025) (الدقهلية 2025)
- 3 HTML tags have four main parts. (المنوفية - شبين الكوم 2025)
- 4 In HTML, the <i> tag is used to display text in italics. ()
 (العبور 2025) (القاهرة الجديدة 2024)
- 5 The tag is used to write a bold text in the web page. ()
 (الجيزة - العمرانية 2025) (الإسكندرية - شرق 2024)
- 6 HTML files are saved with the extension: .doc. ()
- 7 To write the largest heading in a web page, use the <h6></h6> tag.
 (أسبوط 2025) (الدقهلية - طلخا 2025)
- 8 The <html> tag defines the start and the end of a web page. ()
- 9 Every tag in HTML must have a closing tag. ()
- 10 The <title> tag shows the name in the browser tab. ()
- 11 The HTML tag <p>....</p> is used to create a hyperlink. ()
 (الجيزة - حدائق أكتوبر 2025)
- 12 HTML files can be displayed using Internet browsers such as Firefox or Chrome. ()
- 13 The <h1>.....</h1> tag refers to creating a paragraph. ()
 (الإسكندرية - وسط 2024)
- 14 The content placed inside the <body> tag is visible to the user. ()
- 15 The <head> tag contains all content that appears to the user in a web page. ()

3 Choose from column (A) what suits it in column (B):

Column (A)	Column (B)
1 	a. defines a paragraph in HTML.
2 <h1>	b. is used to insert an image onto the web page
3 	c. is used to make a text bold in HTML.
4 <i>	d. is used to make a text italic in HTML.
5 <p>	e. is used to create the largest heading in HTML.

1 2 3 4 5

1 Choose the correct answer:

- Electronic games are mainly based on
a. toys
b. books
c. real playgrounds
d. virtual worlds
 - Playing electronic games too much can affect your
a. sleep
b. study
c. family time
d. all of them
 - There are several disadvantages of electronic games, like
a. physical dangers
b. psychological danger
c. security dangers
d. all of them
- (الإسماعيلية 2024)
-
- Sitting in a wrong posture while gaming can cause
a. extra energy
b. back and neck pain
c. a better posture
d. longer sleep
 - The continuous focus on a screen for a long time may result in
a. a blurry vision
b. eye dryness
c. stronger memory
d. both a and b
 - Sharing your name and full address in a game is
a. helpful
b. dangerous
c. fun
d. normal
 - is one of the physical risks of electronic games.
a. Eye dryness
b. Anxiety
c. Allowing strangers to access your name
d. Face
- (أبنوا في الخارج 2025)
-
- Clicking on unknown links from strangers may
a. install useful tools
b. spread viruses
c. improve the speed
d. give rewards
 - If gaming becomes more important than everything else, it can
a. create aggressive feelings
b. improve your sleep
c. enhance your studying
d. reduce the stress

- 10 To avoid physical danger during gaming, you should
 - a. take breaks
 - b. move and exercise
 - c. play all night
 - d. both a and b
- 11 helps you avoid security risks.
 - a. Sharing personal data
 - b. Ignoring privacy
 - c. Playing with friends
 - d. Clicking on all links
- 12 To reduce psychological risks, players should
 - a. play without limits
 - b. avoid their family
 - c. set a fixed play time
 - d. share their personal information
- 13 Families can support safe gaming by
 - a. ignoring gaming
 - b. setting clear rules
 - c. buying all new games
 - d. all of them
- 14 To avoid security dangerous of electronic games,
 - a. set privacy settings
 - b. play with your friends
 - c. share personal information
 - d. both a and b
- 15 One of the dangers of electronic games is because you may not be exercising.
 - a. hacking
 - b. gaining weight
 - c. bullying
 - d. violence
- 16 You should not share your because others can access your address, email, and phone number.
 - a. games
 - b. news
 - c. personal information
 - d. jokes

2 Put (✓) or (X):

- 1 There are no dangers while playing electronic games. ()
(الإسكندرية - شرق 2024)
- 2 Electronic games can be fun, but they impact your health. ()
- 3 Playing too often can affect your sleep cycle, which hinders your ability to sleep. ()
(الإسكندرية - المنتزه ثان 2024)
- 4 Games never involve interaction between players. ()
- 5 Long periods of sitting and playing games may cause neck and back pain. ()

- 6 Chatting with strangers in games is always safe. ()
- 7 Sharing your address and phone number online is risky. ()
- 8 It is recommended to play games and chat with people you don't know. ()
- 9 One of the physical dangers is that some players may insult others or bully them. ()
- 10 Setting privacy on online games helps protect players. ()
- 11 It is necessary that refuse the rules that your parents set on playing games online. (الإسكندرية – المنزه أول 2025) ()
- 12 Using games to escape problems helps avoid gaming dangers. ()
- 13 If someone bullies you on online games, you should bully them. ()
- 14 You should balance between gaming and other hobbies. ()
- 15 If you face risks in online games, consult your parents. (القاهرة – الزيتون 2025) ()
- 16 To limit risks in online gaming, use personal information in your username. (الجيزة – 6 أكتوبر 2025) ()
- 17 Being bullied online is one of the physical electronic games dangers. (الإسكندرية – العجوي 2025) ()

3 Complete the missing parts using the words between the brackets:

(eye dryness – Back problems – aggressive – Unknown links – personal information)

- 1 is one of the security dangers of electronic games. (البحيرة – دمنهور 2024)
- 2 are one of the dangers of electronic games because you sit for a long time in a wrong way while playing.
- 3 Electronic games can cause and a blurry vision. (الفربية – طنطا شرق 2025) (الفربية 2024)
- 4 When gaming becomes more important than anything else, it may cause feelings. (الإسكندرية – وسط 2025)
- 5 Don't share, such as your name, email, phone number, and address.

Exercises on Lesson

2

Choose the correct answer:

- 1 It is preferable for passwords to contain at least characters.
a. five b. eight c. three d. four
(أبناؤنا في الخارج 2024)
- 2 is the software that scans your face using your device's camera.
a. OneDrive b. Facial recognition
c. Fourth Drive d. None of them
(جنوب الجزيرة 2025)
- 3 MFA requires at least ways of identifying yourself.
a. two b. three c. eight d. four
(الجزيرة - الدقي 2025) (الجزيرة - العمرانية 2025) (المنوفية - تلا 2024)
- 4 A strong password should include
a. capital and small letters b. numbers
c. symbols d. all of them
- 5 If you feel that your data on the Internet is at risk, you should
a. share all the data b. report to the responsible authorities
c. tell unknown people d. change the keyboard
(أبناؤنا في الخارج 2025)
- 6 One of the best secure methods to confirm your identity is
a. writing the name of your school b. fingerprint authentication
c. typing the name d. writing the date of birth
(أبناؤنا في الخارج 2024)
- 7 Sharing your password with friends is
a. safe b. dangerous
c. secure d. recommended
- 8 The software that scans your face using your device's camera is
a. fingerprint b. the password
c. multi-factor authentication d. facial recognition
(الإسكندرية - شرق 2024)

- 9 Encryption programs are
 a. used to play games b. software to protect data
 c. useless software d. hardware devices
- 10 requires at least two ways of identifying yourself.
 a. Multi-factor authentication b. Fingerprint authentication
 c. Facial recognition d. Full encryption (الإسكندرية – المفتة أول 2024)
- 11 If your data is at risk, the first step is to
 a. ignore it b. inform your parents or a trusted person
 c. delete everything d. share it online
- 12 Passwords that are easy to guess include
 a. numbers and symbols b. random letters
 c. names or birth dates d. capital letters
- 13 Fingerprint authentication usually scans your
 a. eye b. face c. finger d. palm
- 14 All the following are strong passwords, except (الشرقية – ديرب نجم 2025)
 a. p@yRoblox4lhour b. ELSayedSfadel_70
 c. thanks\$123 d. AlwaysSaythanks
- 15 Multi-Factor authentication is mainly used to
 a. design games b. verify your identity
 c. download apps d. play videos

2

Put (✓) or (X):

- 1 Passwords that consist of random letters, numbers, and symbols of eight or more in length are the most secure passwords. (القاهرة – الزيتون 2025) ()
- 2 If you have been exposed to data theft, you should report it. ()
- 3 MFA requires at least two ways of identifying yourself.
 (الإسكندرية – وسط 2025) ()
- 4 Full encryption works to protect your information so that only you can access it. (السيوط 2025) ()
- 5 Facial recognition and passwords are ways to protect your digital devices.
 (سوهاج 2024) ()

- 6 Sharing your password with a friend is safe. ()
- 7 Fingerprint authentication will scan your face using your device's camera. (الإسكندرية - شرق 2025) ()
- 8 If data is at risk, ignore the problem. ()
- 9 Multi-factor authentication increases the security of your data. ()
- 10 It is preferable that the password consists of numbers only. ()
- (قنا - نجع حمادي 2025)
- 11 Protecting your devices is a personal responsibility. ()
- 12 Fingerprint authentication is a type of authentication confirming it's you. (الإسكندرية - المنتزه أول 2025) (الإسكندرية - وسط 2023) ()
- 13 Multi-factor authentication (MFA) is not an effective way to protect your accounts. ()
- 14 Fingerprint and face recognition are secure methods to protect your data. ()
- 15 If you've been a victim of data theft, there is no need to report the theft. ()

3 Choose from column (A) what suits it in column (B):

Column (A)	Column (B)
1 Encryption	a. is a type of authentication that scans your finger to confirm your identity.
2 Multi-factor authentication	b. should be difficult to guess and consist of at least 8 characters.
3 Fingerprint authentication	c. requires at least two ways of identifying yourself.
4 Strong passwords	d. scans your face using your device's camera to confirm your identity.
5 Facial recognition	e. protects your information.

Lesson 6: Website Design

HTML Tags

- **Hyper Text Markup language (HTML)** is the standard programming language used to **create static webpage**.
- It describes the **structure** of a web page.

HTML Elements

HTML consists of a series of elements, such as:

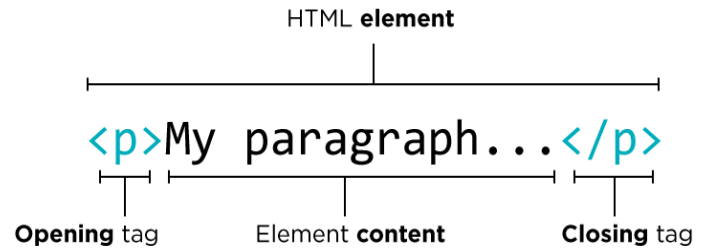

- 1- Headings
- 2- Paragraphs
- 3- Links
- 4- Images

- There are the building blocks of webpages.
- Web browsers read HTML documents and display the content according to the HTML tag.

❖ Tags have three main parts:

- 1- An opening tag
- 2- The content
- 3- A closing tag

❖ Some examples for HTML tags:

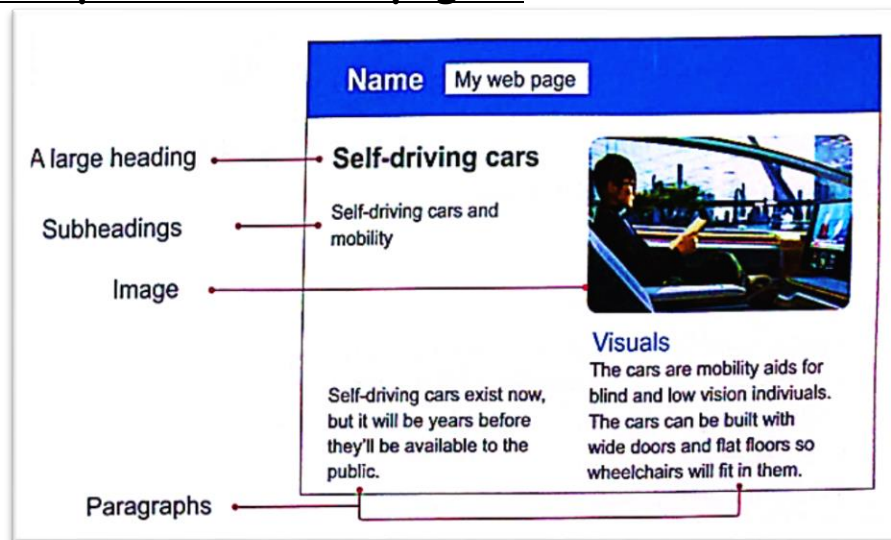

Identify these tags:

Large heading	large heading
Subheading	subheading
Smaller subheading	smaller subheading
paragraph	= to create a paragraph. = ending of paragraph tag
font size	< font size = "1">,
font color	< font color = red>< font color = "red">
hyperlink	 Visit the Egyptian Knowledge Bank
Emphasized text (italics)	<i> emphasized text </i>
Bold text	 bold text

Website Design and Accessibility features:

- HTML elements break up web pages to make them easier to scan, read, and navigate.
- HTML code can also help people with low vision to distinguish between parts of a web page.

Some HTML components of webpages:

➤ A large heading:

- It's at the top tag of the page.
- It catches attention.

➤ Image:

- It attracts attention.
- It can trigger different emotions.
- Add image and alt-text tags.

➤ Subheadings:

- They make the text easy to scan so a reader can find the information they want.

➤ **Paragraphs:**

- A paragraph usually has more than one sentence.
- Text broken up into Paragraphs makes it easy for the reader to scan for the information they want.

✚ **TIP:**

How to deal with the exam:

Guiding words	Items
Programming language	HTML is the standard programming language used to create web pages.

Subheadings-reader	Subheadings make the text easy to scan so a reader can find the information they want
Paragraph	A paragraph usually has more than one sentence
Images- alt-text	Add image and alt-text tags

Homework

1-Put (✓) in front of the correct sentence and (x) in front of the wrong one.

1. The tag <i>.... </i> refers to Emphasized text. ()
2. A paragraph usually has more than one sentence. ()
3. We use the tag <a>... to create hyperlink. ()
4. The tag ... is used to change the font size only. ()
5. To change the text to bold we use the ... tag. ()
6. HTML elements break up web pages to make them easier to scan, read, and navigate. ()

2- Match

<u>A</u>	<u>B</u>
1. <a>...	▪ For creating paragraph. (.....)
2. ...	▪ Change the text to Italic. (.....)
3. <i>...</i>	▪ To create heading. (.....)
4. ...	▪ Change the font size and color. (.....)
5. ...	▪ To create hyperlink. (.....)

Theme 2

Lesson 1: How to deal with electronic games.

- Electronic games which are played over the internet with friends, can be a lot of fun to play.
 - · Electronic games can help to promote critical and creative thinking, and encourage teamwork
 - · Online games can be fun to play but they can impact health.

Disadvantages of electronic games

1. Physical dangers
2. Psychological dangers
3. Security dangers

1 Physical Dangers

- Playing too often can affect your sleep cycle.
- It may keep you stimulated and prevent from falling asleep.
- It can strain your eyes, cause back problems because you stay hunched over while playing, and cause headaches.
- There's also a danger of gaining weight because you may not be exercising or eating properly while playing electronic games.

2 Psychological Dangers

You may become anxious and depressed because:

- You feel lonely in the real world or You are being bullied online. Electronic games can make some people aggressive, as some games promote violence.
- Electronic games can prevent some players from thinking rationally when facing situations.
- All of these factors can negatively affect your relationship with family and friends.

3 Security Dangers

- Multiplayer games, in particular, can put your security at risk.
- If you share too much **personal information**, strangers may be able to access your name, email, phone number, and address.
- Large gaming communities are filled with **cyberbullies**.
- **Hackers** can cause your information to be leaked and **viruses** are easily spread.

Responsible gaming

You can limit the dangers you are exposed to by:

1. Only playing games and chatting with people you know and trust.
2. Not using personal information in your username and passwords. · Not using a webcam.
3. You should accept limits that your parents set to prevent unhealthy gaming habits.
4. Make sure that gaming does not replace real-life activities like spending time with your family, meeting friends, homework, maintaining a healthy diet, getting enough exercise or sleep.
5. When you do encounter dangers, don't be afraid to tell your parents. They want to help you. That could include family discussions and increased supervision when using the internet.

Homework

1-Choose the correct answer:

1. Spending a lot of time playing electronic games can cause.....
(a. eye strain b. back problems c. both a and b)
- 2.....can cause your information to be leaked, and viruses are easily spread
(a. Cyberbullies b. Hackers c. Friends)

(a. stealing data b. cyberbullying c. headaches)
4. One of the psychological dangers of electronic games is.....
(a. eye strain b. being depressed c. cyberbullying)
5. You should not share..... address, email, and phone number.
(a. games b. news c. cyberbullying)

2. Complete the following sentences using the words between the brackets:

(aggressive Back problems - webcam - Cyberbullies - personal information)

- 1.....is one of the security dangers of electronic games.
2. Some electronic games promote violence and can make some people.....
- 3..... is one of dangers of electronic games because you stay hunched over while playing.
4. Don't use a..... to limit the dangers of electronic games.
5. Don't share..... such as your name, email, phone number, and address.

Lesson 2: protecting yourself from Digital Theft.

- It is irresponsible to leave your devices at risk by not taking proper safety precautions.
- You have learned about the importance of strong passwords. Let's look at some more ways you can effectively protect your devices from theft.

Different features that you can use to protect your data

1 Passwords

Passwords with at least **eight** random **letters**, **numb**
symbols are the most secure.

2 Multi-Factor Authentication (MFA)

MFA requires at least **two ways** of identifying yourself, usually through **passwords**, **pins**, and **security codes** or personal questions.

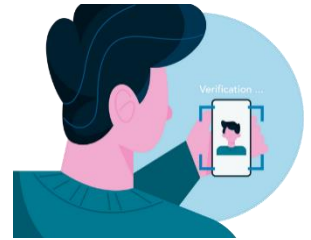

3 Fingerprint authentication

This type of authentication will **scan** your **finger** as a way of confirming it's you.

Facial recognition

- Facial recognition software will **scan** your **face** using your device's **camera**.
- This way, only the user's face can be used to open their devices or devices' apps.

5 Full Disk Encryption

Encryption protects your information so only you can access it on your device, as long as you have set your password.

Data Protection Law in Egypt

1- Companies:

- Companies are in particular need to protect their websites and their customers' information.
- In 2020, Egypt formed the **Data Protection Law** to protect its citizens. » Companies must **report immediately** if they have been victims of data theft, and let their customers know immediately as well.

2- Individuals:

- Individuals should report data theft too.
- If you think your data has been compromised, make sure to tell a parent or trusted adult, they can let the proper authorities know.

- You should also tell the family and friends you communicate with online. This way, they will not open any attachments or click on any links that come from your accounts.

Homework

1. Put (✓) or (X):

1. It is irresponsible to leave your devices at risk without protection. ()
2. It is not important for companies to protect their data. ()
3. Strong passwords contain letters, numbers and special characters. ()
4. The facial recognition feature allows only your face to unlock your device. ()
5. Fingerprint authentication allows you to lock your device if it is lost. ()
6. Multi-factor authentication (MFA) is not an effective way to protect your accounts. ()

2. Choose from column (A) what suits it in column (B):

<u>Column (A)</u>	<u>Column (B):</u>
1. Full disk encryption	a. is a type of authentication that usually scans your thumb to confirm your identity.
2. Multi-factor authentication	b. is a feature that allows you to lock your device remotely if you lose it.
3. Fingerprint authentication	c. requires at least two ways of identifying yourself.
4. Lock when lost	d. scans your face using your device's camera to confirm your identity.
5. Facial recognition	e. scrambles your information and can only be accessed if you enter a password

Question1: Choose the correct answer

- 1- HTML stands for _____.
 - a. Hyper Text Machine Language
 - b. Hyper Text Markup Language
 - c. High Tech Markup Language
 - d. Human Text Markup Language
- 2- _____ is the standard programming language used to create web pages.
 - a. HTML
 - b. Heading
 - c. MS Windows
 - d. Android
- 3- The HTML language consists of a group of _____.
 - a. applications
 - b. tags
 - c. servers
 - d. databases
- 4- The HTML language consists of three main parts and there is a _____ at the beginning and the end.
 - a. paragraph
 - b. word
 - c. drawing
 - d. tag
- 5- To create a paragraph in the web page, use the tag _____.
 - a. <h1>
 - b. <i>
 - c.
 - d. <p>
- 6- The closing tag for creating a paragraph in HTML is _____.
 - a. </p>
 - b. <p/>
 - c. </para>
 - d. <end>
- 7- HTML tags have _____ main parts.
 - a. two
 - b. three
 - c. four
 - d. five

- 8- The main tag that defines the start and the end of the entire web page is _____.
- a. <head>
 - b. <body>
 - c. <h1>
 - d. <html>
- 9- Programmers use the Hyper Text Markup Language (HTML) to create _____.
- a. web pages
 - b. games
 - c. sources
 - d. databases
- 10- Electronic games can be a lot of fun, but there can be problems playing these games like
- a) Cyber bullying
 - b) Hacking
 - c) Having fun
 - d) Both a and b
- 11- There are several disadvantages of electronic games like
- a) Physical dangers
 - b) Psychological dangers
 - c) Security dangers
 - d) All of them
- 12- Electronic games can strain your and cause headaches
- a) Hand
 - b) Arm
 - c) Eyes
 - d) leg
- 13- when playing games online, don't put personal information, such as
- a) your full name as your username
 - b) your email, address
 - c) both a and b
 - d) none of them

- 14- large gaming communities are filled with
a) data
b) cyberbullies
c) information
d) none of them
- 15- hackers can cause your information to be leaked and Are easily spread
a) viruses
b) games
c) data
d) none of them
- 16- MFA requires at least ways of identifying yourself
a) Two
b) Three
c) Four
d) five
- 17- are ways of Multi Factor Authentication
a) Passwords
b) Pins
c) Security codes
d) All of them
- 18- will scan your face using your device's camera
a) Fingerprint authentication
b) Pins
c) Facial recognition
d) Multi Factor Authentication

Question 2: Put (true) or (false)

- 1- The HTML language has an opening tag and a closing tag only. ()
2- HTML is a standard programming language used to create web pages. ()
3- HTML tags have four main parts. ()
4- In HTML, the <i> tag is used to display text in italics. ()
5- The tag is used to write a bold text in the web page. ()
6- HTML files are saved with the extension: .doc. ()

- 7- To write the largest heading in a web page, use the <h6></h6> tag. ()
- 8- The <html> tag defines the start and the end of a web page. ()
- 9- Every tag in HTML must have a closing tag. ()
- 10- The <title> tag shows the name in the browser tab. ()
- 11- The HTML tag <p>....</p> is used to create a hyperlink. ()
- 12- HTML files can be displayed using Internet browsers such as Firefox or Chrome. ()
- 13- The <h1>....</h1> tag refers to creating a paragraph. ()
- 14- The content placed inside the <body> tag is visible to the user. ()
- 15- The <head> tag contains all content that appears to the user in a web page.
- 16- Playing too often can help your sleep cycle ()
- 17- Electronic games can strain your hands ()
- 18- Electronic games may keep you stimulated and prevent you from falling asleep ()
- 19- Never accept limits that your parents set to prevent unhealthy gaming habits ()
- 20- Gaining weight is one of electronic games dangers ()
- 21- Some electronic games promote violence ()
- 22- It is preferable that the passwords consist of numbers only. ()
- 23- Facial recognition and passwords are ways to protect your digital devices. ()
- 24- It isn't important for companies to protect their customers' information. ()
- 25- You can protect your devices from theft by setting simple passwords ()
- 26- MFA stand for Multi Factor Authentication ()
- 27- Multi Factor Authentication requires at least three ways of identifying yourself ()
- 28- Fingerprint Authentication, is a type of authentication, will scan your finger as a way of confirming it's you ()
- 29- Full Encryption protects your information so everyone can access it on their devices ()

Question3: Complete the following sentences

(physical – violence – feeling lonely – eyes)

- 1- Electronic games can strain your and cause headaches
- 2- is one of the psychological dangers of electronic games
- 3- Gaining weight is one of the dangers of electronic games
- 4- Some electronic games promote

Question4: Match

1-Passwords	a-Is a shortcut of Multi Factor Authentication
2-MFA	b-With at least 8 random letters, numbers and symbols are the most secure
3-Fingerprint Authentication	c-Protects your information so only you can access it on your device, as long as you have set your password
4-Full Encryption	d-Will scan your finger as a way of confirming it's you
5-Facial Recognition Software	e-Will scan your face using your devices camera

Question1: Choose the correct answer

- 1- HTML stands for _____.
 - a. Hyper Text Machine Language
 - b. Hyper Text Markup Language
 - c. High Tech Markup Language
 - d. Human Text Markup Language
- 2- _____ is the standard programming language used to create web pages.
 - a. HTML
 - b. Heading
 - c. MS Windows
 - d. Android
- 3- The HTML language consists of a group of _____.
 - a. applications
 - b. tags
 - c. servers
 - d. databases
- 4- The HTML language consists of three main parts and there is a _____ at the beginning and the end.
 - a. paragraph
 - b. word
 - c. drawing
 - d. tag
- 5- To create a paragraph in the web page, use the tag _____.
 - a. <h1>
 - b. <i>
 - c.
 - d. <p>
- 6- The closing tag for creating a paragraph in HTML is _____.
 - a. </p>
 - b. <p/>
 - c. </para>
 - d. <end>
- 7- HTML tags have _____ main parts.
 - a. two
 - b. three
 - c. four
 - d. five

8- The main tag that defines the start and the end of the entire web page is

- a. <head>
- b. <body>
- c. <h1>
- d. <html>

9- Programmers use the Hyper Text Markup Language (HTML) to create

- a. web pages
- b. games
- c. sources
- d. databases

10- Electronic games can be a lot of fun, but there can be problems playing these games like

- a) Cyber bullying
- b) Hacking
- c) Having fun
- d) Both a and b

11- There are several disadvantages of electronic games like

- a) Physical dangers
- b) Psychological dangers
- c) Security dangers
- d) All of them

12- Electronic games can strain your and cause headaches

- a) Hand
- b) Arm
- c) Eyes
- d) leg

13- when playing games online, don't put personal information, such as

- a) your full name as your username
- b) your email, address
- c) both a and b
- d) none of them

- 14- large gaming communities are filled with
- a) data
 - b) cyberbullies
 - c) information
 - d) none of them
- 15- hackers can cause your information to be leaked and Are easily spread
- a) viruses
 - b) games
 - c) data
 - d) none of them
- 16- MFA requires at least ways of identifying yourself
- a) Two
 - b) Three
 - c) Four
 - d) five
- 17- are ways of Multi Factor Authentication
- a) Passwords
 - b) Pins
 - c) Security codes
 - d) All of them
- 18- will scan your face using your device's camera
- a) Fingerprint authentication
 - b) Pins
 - c) Facial recognition
 - d) Multi Factor Authentication

Question 2: Put (true) or (false)

- 1- The HTML language has an opening tag and a closing tag only. (F)
- 2- HTML is a standard programming language used to create web pages. (T)
- 3- HTML tags have four main parts. (F)
- 4- In HTML, the <i> tag is used to display text in italics. (T)
- 5- The tag is used to write a bold text in the web page. (T)
- 6- HTML files are saved with the extension: .doc. (F)

- 7- To write the largest heading in a web page, use the <h6></h6> tag. (F)
- 8- The <html> tag defines the start and the end of a web page. (T)
- 9- Every tag in HTML must have a closing tag. (T)
- 10- The <title> tag shows the name in the browser tab. (T)
- 11- The HTML tag <p>....</p> is used to create a hyperlink. (F)
- 12- HTML files can be displayed using Internet browsers such as Firefox or Chrome. (T)
- 13- The <h1>....</h1> tag refers to creating a paragraph. (F)
- 14- The content placed inside the <body> tag is visible to the user. (T)
- 15- The <head> tag contains all content that appears to the user in a web page. (F)
- 16- Playing too often can help your sleep cycle (F)
- 17- Electronic games can strain your hands (F)
- 18- Electronic games may keep you stimulated and prevent you from falling asleep (T)
- 19- Never accept limits that your parents set to prevent unhealthy gaming habits (F)
- 20- Gaining weight is one of electronic games dangers (T)
- 21- Some electronic games promote violence (T)
- 22- It is preferable that the passwords consist of numbers only. (F)
- 23- Facial recognition and passwords are ways to protect your digital devices. (T)
- 24- It isn't important for companies to protect their customers' information. (F)
- 25- You can protect your devices from theft by setting simple passwords (F)
- 26- MFA stand for Multi Factor Authentication (T)
- 27- Multi Factor Authentication requires at least three ways of identifying yourself (F)
- 28- Fingerprint Authentication, is a type of authentication, will scan your finger as a way of confirming it's you (T)
- 29- Full Encryption protects your information so everyone can access it on their devices (F)

Question3: Complete the following sentences

(physical – violence – feeling lonely – eyes)

- 1- Electronic games can strain your ... **eyes** and cause headaches
- 2- ... **feeling lonely** is one of the psychological dangers of electronic games
- 3- Gaining weight is one of the ... **physical** dangers of electronic games
- 4- Some electronic games promote ... **violence**

Question4: Match

1-Passwords B	a-Is a shortcut of Multi Factor Authentication
2-MFA A	b-With at least 8 random letters, numbers and symbols are the most secure
3-Fingerprint Authentication D	c-Protects your information so only you can access it on your device, as long as you have set your password
4-Full Encryption C	d-Will scan your finger as a way of confirming it's you
5-Facial Recognition Software E	e-Will scan your face using your devices camera
